ABOUT

I think like a designer, code like an engineer, and debug like a detective.

My goal: to create applications with soul, where form serves function and technology enhances experience. For me, development is above all a way to solve problems with elegance.

EXPERIENCE

Full-Stack Developer May - June 2025 (2 Months)
[VPI INFO, Kenitra](#)

Migration of a desktop solution to a web architecture for a management application for SMEs.
